

EMSCULPT®

—BODY TONING—

WHAT IS EMSCULPT?

According to BTL Industries Inc, the makers of the Emsculpt machine, “the Emsculpt is the only procedure to help both women and men build muscle and sculpt their body. In addition, the Emsculpt creates the world’s first non-invasive buttock toning procedure.”

HOW DOES A SESSION WORK?

Emsculpt can help you get the body you want. A session feels like an intensive workout. In fact, you may be able to lay down and relax during the procedure. Usually, a session lasts 30 minutes. And, a minimum of 4 sessions is needed to see results. To meet specific goals, more sessions may be required.

Since the machine is non-invasive, no downtime is required. Even better, there’s no pre- or post-treatment preparation!

IS EMSCULPT THE PROCEDURE FOR YOU?

Ideally, says BTL Industries Inc., “anyone can benefit from the Emsculpt procedure.” But, to be sure you meet the criteria, consult a doctor.
